2015–16 Key Dates

Testing is scheduled within the windows listed below. Contact your local school district to find out which dates your child will be testing. Contact your local school district to find out when your child's scores will be available.

STATE TESTING WINDOWS		STATE-APPROVED ALTERNATIVES	
Sept 14–Nov 20:	Washington-Access to Instruction & Measurement (WA-AIM) <i>(retake for 12th graders with significant cognitive challenges who have not yet met standard)</i>	Jan 27:	Deadline to submit Collection of Evidence (COE)
Oct 19–Apr 8:	WA-AIM	Apr 30–May 22:	International Baccalaureate (IB) testing: Please contact your school counselor
Nov 2–20 :	Smarter Balanced <i>(retake)</i>	May 2–6:	Advanced Placement (AP) testing window 1
Jan 4–Feb 5:	End-of-Course (EOC) exams <i>(retake for students who have not yet met standard)</i>	May 9–13:	AP testing window 2
Mar 7–June 10:	Smarter Balanced	June 1:	Deadline to submit COE
Last 3 weeks of school:	EOC exams	Sept 12, Oct 24, Dec 12, Feb 6, Apr 9, June 11:	ACT testing dates <i>(see www.actstudent.org/regist/dates.html for registration deadlines)</i>
		Oct 3, Nov 7, Dec 5, Jan 23, Mar 5, May 7, Jun 4:	SAT testing dates <i>(see professionals.collegeboard.com/testing/sat-reasoning/register/test-dates for registration deadlines)</i>

State Graduation Requirements

A high school diploma is more than a rite of passage. It signifies that a student worked hard, was challenged, and is prepared for the next steps in life.

The state's minimum graduation requirements, as established by the State Board of Education, represent a portfolio of a student's high school career.

Students must fulfill the graduation requirements that are in place when they *first enter ninth grade*, unless the state legislature votes to reduce those requirements. The requirements will not increase once a student has started ninth grade.

The requirements do not change even if the student's graduation year changes.

State Requirements for the Class of 2018

Students entered ninth grade in fall 2014 must fulfill the following three requirements, including the coursework outlined in [WAC 180-51-067](#).

1. Earn 20 High School Credits

Students must *also* meet the course and credit requirements established by their local districts.

2. Develop a High School and Beyond Plan

To graduate, students must develop a plan on how they will meet the high school graduation requirements and what they will do following high school. A student's plan, which ideally should be started in eighth or ninth grade and revised as he/she moves forward, should include the classes needed to prepare for a two- or four-year college, apprenticeship, career or technical school, certificate program, or the workforce. Each school district determines the guidelines

State & Local Requirements

School districts may have additional credit and non-credit graduation requirements, such as community service. Students and their families should be aware of all state and local graduation requirements when they begin high school.

for the high school and beyond plan. Questions about the guidelines should be directed to the high school or school district office.

3. Earn a CAA/CIA

Students must pass state exams, or state-approved alternatives, to be eligible to graduate and earn a Certificate of Academic Achievement (CAA).

Students receiving special education services may earn a CAA or a Certificate of Individual Achievement (CIA).

The CAA and CIA tell families, schools, businesses, and colleges that a student has mastered a minimum set of skills by graduation. [RCW 28A.655.061](#) dictates the assessment graduation requirements that qualify a student for a CAA or CIA.

Students in the Class of 2018 earn a CAA or CIA by passing state exams in English Language Arts, Science, and Math.

Class of 2018 State Testing Requirements

ENGLISH LANGUAGE ARTS	SCIENCE	MATH
English language arts (ELA) requirement has been met by (choose one):	Science requirement has been met by (choose one):	Math requirement has been met by (choose one):
Scoring at least 2548 on Smarter Balanced ELA test.	Passing Biology End-of-Course (EOC) exam.	Passing one Math End-of-Course (EOC) exam or EOC exit exam.*
Scoring a CIA-level score on Smarter Balanced ELA test** (limited to students in special education, per IEP team).†	Scoring Level 2 (Basic) on the Biology EOC (limited to students in special education, per IEP team).†	Scoring Level 2 (Basic) on one Math EOC exam or EOC exit exam* or CIA-level score on Smarter Balanced Math test** (limited to students in special education, per IEP team).†
Passing ELA Washington-Access to Instruction and Measurement (WA-AIM) (limited to students with significant cognitive challenges, per IEP team).†	Passing Science Washington-Access to Instruction and Measurement (WA-AIM) (limited to students with significant cognitive challenges, per IEP team).†	Passing Math Washington-Access to Instruction and Measurement (WA-AIM) (limited to students with significant cognitive challenges, per IEP team).†
Using Grades Comparison option.**	Using Grades Comparison option.**	Using Grades Comparison option.**
Scoring 3 or higher on one of the AP exams or 4 or higher on one of the IB exams approved for ELA.**	Scoring 3 or higher on one of the AP exams or 4 or higher on one of the IB exams approved for Science.**	Scoring 3 or higher on one of the AP exams or 4 or higher on one of the IB exams approved for Math.**
Earning a high enough score on the SAT or ACT Plus Writing.**	Earning a high enough score on the ACT.**	Earning a high enough score on the SAT or ACT.**
Passing ELA Collection of Evidence (COE).**	Passing Biology Collection of Evidence (COE).**	Passing Math Collection of Evidence (COE).**
Passing off-grade level assessment in ELA (limited to 11th and 12th graders receiving special education, per IEP team).†	Passing off-grade level assessment in Science (limited to 11th and 12th graders receiving special education, per IEP team).†	Passing off-grade level assessment in Math (limited to 11th and 12th graders receiving special education, per IEP team).†
Passing a Locally Determined Assessment (LDA) in ELA (limited to 12th graders receiving special education, per IEP team).†	Passing a Locally Determined Assessment (LDA) in Science (limited to 12th graders receiving special education, per IEP team).†	Passing a Locally Determined Assessment (LDA) in Math (limited to 12th graders receiving special education, per IEP team).†
For students pursuing a diploma without passing a Washington state ELA test, the requirement has been waived by (choose one):	For students pursuing a diploma without passing a Washington state Science test, the requirement has been waived by (choose one):	For students pursuing a diploma without passing a Washington state Math test, the requirement has been waived by (choose one):
Passing an OSPI-approved high school ELA test in another state.#	Passing an OSPI-approved high school Science test in another state.#	Passing an OSPI-approved high school Math test in another state.#
Appealing ELA assessment requirement to the state because of a special circumstance.###	Appealing Science assessment requirement to the state because of a special circumstance.###	Appealing Math assessment requirement to the state because of a special circumstance.###

* EOC exams are based on previous Washington State Learning Standards in math. EOC exit exams are based on updated Washington State Learning Standards (Common Core), beginning in school year 2014–15.

** Scores required for students to earn a Certificate of Individual Achievement (CIA) have not been determined as of August 2015. Scores will be announced by November 2015.

† The decision about how an eligible student participates in statewide assessment is an [Individualized Education Program \(IEP\) team decision](#), not an administrative decision.

** Unless a student transferred into Washington public schools in 11th or 12th grade he or she must attempt state assessments once before qualifying for alternatives in each content area (www.k12.wa.us/assessment/GraduationAlternatives).

Must have transferred into Washington public schools from another state or a private school.

Must be a 12th grader and meet the **very** limited criteria outlined in [Washington Administrative Code \(WAC\) 392-501-601](#) to apply.

Washington State **Minimum*** Credit Requirements

CLASSES	CREDITS	ADDITIONAL INFORMATION
ENGLISH	4	Some districts received a two-year waiver from requiring 4 credits and will continue to require 3 credits through the Class of 2018: www.sbe.wa.gov/documents/GradRequirements/TwoYearExtensionDistricts.pdf
MATHEMATICS	3	<input type="checkbox"/> Algebra 1 or Integrated 1 <input type="checkbox"/> Geometry or Integrated 2 <input type="checkbox"/> Algebra 2 or Integrated 3; or a student may elect to pursue a third credit of math other than Algebra 2 or Integrated 3 if the elective choice is based on a career-oriented high school and beyond plan and the student, parent/guardian and school representative meet and sign a form
SCIENCE	2	<input type="checkbox"/> Must include 1 lab
SOCIAL STUDIES**	3	Some districts received a two-year waiver from requiring 3 credits and will continue to require 2.5 credits through the Class of 2018: www.sbe.wa.gov/documents/GradRequirements/TwoYearExtensionDistricts.pdf <input type="checkbox"/> 1 credit in U.S. history and government <input type="checkbox"/> 1 credit in contemporary world history, geography and problems, or an equivalent course <input type="checkbox"/> 0.5 credit in civics <input type="checkbox"/> 0.5 credit in social studies elective
ARTS	1	
HEALTH AND FITNESS	2	<input type="checkbox"/> 0.5 credit in health <input type="checkbox"/> 1.5 credits in fitness
CAREER AND TECHNICAL EDUCATION	1	Or 1 Occupational Education credit, as defined in WAC 180-51-067
ELECTIVES	4	
TOTAL REQUIRED CREDITS	20	

* Many districts require **more than the minimum** credits to graduate. Please see your local district requirements to find out how many are required to earn a diploma from your high school.

** State History is also required for graduation, but students usually fulfill this non-credit requirement before they enter high school.

Graduation Alternatives

Certificate of Academic Achievement (CAA) Options

Students who have not passed state tests can use the CAA Options, or “graduation alternatives,” to meet assessment graduation requirements. Students must attempt a state test at least once or fulfill other eligibility criteria before accessing CAA options.

Learn more: bit.ly/1nyykvR.

Transfer students: See page 8 if you transferred into a Washington public school in 11th or 12th grade.

Collection of Evidence (COE)

The COE is an evaluation of a set of work samples based on classroom work prepared by the student with instructional support from a teacher. Students must meet eligibility criteria.

GPA Comparison

A student’s grades in English and/or math courses are compared with the grades of students who took the same courses and passed the state test. This option is available only to students in their 12th-grade year who have an overall grade-point average of 3.2.

College Admission/AP/IB Tests

Students may use their math, reading, and/or writing scores on the SAT reasoning test, ACT, or ACT Plus Writing tests, or specified Advanced Placement (AP) or International Baccalaureate (IB) examinations to show they have key skills expected of high school graduates.

Minimum acceptable scores on college-entrance exams:

	SAT	ACT
Math	390	16
Reading	350	13
Writing	380	15 *

* Note: Student must take the ACT Plus Writing.

Students must earn a 3 or better on one of the following AP exams:

AP	
Math	Calculus or statistics
Reading	English literature and composition, macroeconomics, microeconomics, psychology, U.S. history, world history, U.S. government and politics, comparative government and politics
Writing	English language and composition

Students must earn a 4 or better on one of the following higher-level (HL) IB exams:

IB	
Math	Mathematics or further mathematics
Reading & Writing	Language A: literature, language A: language and literature, business and management, economics, geography, history, information technology is a global society, philosophy, psychology or social and cultural anthropology

Graduation Alternatives, continued

Certificate of Individual Achievement (CIA) Options

All students, including students who receive special education services, must participate in state testing. Individualized Education Program (IEP) teams make decisions about which tests students in special education take. They may determine that a Certificate of Individual Achievement (CIA) is more appropriate for some students.

Diplomas are the same whether a student earns a CAA or CIA.

Students who have not passed state tests can use the CIA Options, or “state-approved alternatives,” to meet assessment graduation requirements. Students must attempt a state test at least once or fulfill other eligibility criteria before accessing CIA options.

Learn more: bit.ly/1nyykvR.

NOTE: *Students with a Section 504 Plan are not eligible to use any of the graduation alternatives developed for students with IEPs.*

Transfer students: *See page 8 if you transferred into a Washington public school in 11th or 12th grade.*

State Tests With the “Basic” Option

The Basic option allows students to pass a state test or a Collection of Evidence (COE) at a Level 2 score (Basic) instead of the Level 3 score (Proficient).

Off-Grade Level Tests

Students take a state test in one or more content areas, with or without accommodations, at either an elementary or middle school level. They must meet the established threshold score for proficiency for the grade level accessed.

Locally Determined Assessments

Twelfth graders who have not met English language arts (reading and writing) and math assessment requirements may be able to use a Locally Determined Assessment (LDA). An LDA provides another alternative for students to read and comprehend adapted or below-grade-level text, master a limited number of grade-level or below-grade-level concepts and skills, and communicate orally and/or in writing.

Meeting standard is scoring at or above the established minimum grade equivalency (G.E.) for the prescribed test or the established passing score.

Appeals, Waivers, and Direct Access

Special, Unavoidable Circumstance Appeals

Students in their senior year (or junior year if circumstances apply) who have been unable to demonstrate their skills and knowledge on a state assessment or graduation alternative because of special, unavoidable circumstances may appeal to the Special, Unavoidable Circumstance Appeal Review Board. The board will review and decide on all appeals in May.

This appeals process is for students who *have the skills*, but who have not had an opportunity to show those skills because of special, unavoidable circumstances. Those who have had access to testing are not eligible to apply for this appeal.

For more information, visit bit.ly/SpecialAppeal.

Awareness Level Waiver

Districts may make local decisions about the appropriateness of course credits and high school and beyond plans for students with the most significant cognitive disabilities. State laws and rules ([RCW 28A.155.045](#) and [WAC 180-51-115](#)) acknowledge the critical role of the IEP team in determining the most appropriate high school credit and assessment options for students eligible for special education. However, at this time, districts may not waive the assessment requirements for high school graduation.

Students who take the WA-AIM in 11th grade using the Engagement Rubric are automatically given an Awareness Level Waiver to fulfill their assessment graduation requirement. This level of cognitive development is extremely rare. These students display the following:

- Limited intentionality and not pre-symbolic
- Reaction to environmental stimuli may include crying, opening eyes, movement, etc.
- Uncertain responses to sensory stimuli such as sounds/voice, sight, gestures, touch, movement, smell, etc.
- Behavior may reflect their general physical state (hungry, wet, sleepy)
- Non-verbal communication
- May be alert and/or engaged for very limited times during the day and over time.

For more information, visit bit.ly/AwarenessLevel.

11th- and 12th-Grade Transfer Students

Students who transfer into a Washington public school from another state or from an in-state non-public school setting (private or home school) in their 11th- or 12th-grade year may be eligible to access graduation alternatives without first attempting a state test.

Depending on the transfer student's situation, there are two possible alternatives:

1. **Waiver:** A student may apply to receive a waiver of the assessment graduation requirement if the student has previously passed another state's high school exit exam or accountability exam requirements. The waiver *does not* grant the student a CAA.
2. **Direct access:** A student may apply for access to the graduation alternatives without first attempting a state test. Meeting standard with a graduation alternative *does* grant the student a CAA.

For more information, visit bit.ly/Transfer11th12th.

Graduation Ceremonies

School districts, directed by their own school board policies, determine who participates in graduation ceremonies.

The state has no authority over graduation ceremonies.

Most school districts allow students to participate only if they have fulfilled *all* graduation requirements. However, some districts do make exceptions. Families should consult with their specific school district about their graduation ceremony policy.

Kevin's Law and Graduation

Kevin's law ([RCW 28A.155.170](#)) allows certain students receiving special education

services, and who may still have graduation requirements to complete, to participate in high school graduation ceremonies with their peers. The law requires each school district that operates a high school to adopt a policy and develop procedures to determine which students receiving special education services can participate in graduation ceremonies after four years, even if they will remain in school beyond four years.

Students who participate in the graduation ceremony will receive a certificate of attendance, which is not a high school diploma. Students will receive a diploma when they complete their graduation requirements.

Options for Students Not Graduating After Four Years of High School

Students who have not met their high school graduation requirements AND have not earned a regular high school diploma are eligible for a free public education through the school year in which they turn 21 years old. This includes students under 21 who have earned a high school equivalency certificate or are enrolled in:

- Career and technical education programs including skill centers;
- Transitional bilingual instruction programs;
- Special education programs; **OR**
- Migrant education programs.

High schools and school districts continue to receive Basic Education Allocation (BEA) and any other funding that these students generate.

Free Options

Free options are available for students who are NOT graduating after four years of high school and want to meet their high school graduation requirements. The options are:

1. **Stay Enrolled in High School:** All students are eligible to attend their resident high school through the school year in which they turn 21.
2. **Enroll in a School District High School Completion Program:** School districts may contract with community colleges to offer tuition-free high school completion programs to students still enrolled in their resident school district. Upon completion of program, students would receive a high school diploma from that district.

Options for Students Not Graduating After Four Years of High School, continued

- 3. Continue Running Start:** Students who participated in Running Start during their 11th- and 12th-grade years but didn't complete the classes required for high school graduation may continue their Running Start participation, but only to take those classes through Running Start that they failed or did not complete and are needed to earn a high school diploma. (The Running Start program allows eligible 11th- and 12th-grade students to take college classes tuition free and accrue both high school and college credit for those classes.)
- 2. Pursue a High School Equivalency Certificate:** Students 16 and older may earn a high school equivalency certificate by passing required tests through a high school completion program. In order to take the tests, students must have dropped out or withdrawn from their resident high school. State community and technical colleges are the official testing centers for the high school equivalency certificates. Students pay fees for the assessment(s) and may have to pay tuition and fees for preparation courses offered through community and technical colleges. The certificate is not identical to a high school diploma, and students who earn a high school equivalency certificate are considered dropouts for high school accountability purposes. However, students who are under 21 years of age and who have a high school equivalency certificate can still fulfill their high school graduation requirements and get their diploma. (See Free Options No. 1 and 2 above.)

Paid Options

Paid options are available for students who are NOT graduating after four years of high school and want to meet their high school graduation requirements. The options are:

- 1. Enroll in a Community and Technical College High School Completion Program:** A number of community colleges in the state offer high school completion programs, providing students with a high school diploma *from the college*. Students must drop out of their resident high school to enroll in these programs. In most cases, students are charged tuition and fees for enrollment, although the colleges have the authority to waive tuition and fees for students 19 and older. Students 16 to 18 years of age must have a signed release from their resident school district in order to enroll in a community college high school completion program.
- 3. Enroll in a Public Two- or Four-Year College or University:** Washington's public colleges and universities do not require students to have a high school diploma in order to be admitted, although a high school diploma significantly increases the chances of admission to the state's four-year institutions. Students without high school diplomas who enroll in colleges and universities pay full tuition and fees like all other students. Students who do not have a high school diploma or high school equivalency certificate may not be eligible for certain federal, state and private financial aid.
