The month of December is a whirlwind for most individuals but often also includes precious family time and opportunities to connect and reflect. While we have AMAZING students making many positive choices, we have become increasingly concerned about the health of some of our teens, especially with the use of e-cigarettes, also known as “vaping” or “juuling”. Below are some helpful resources in a variety of topics for your consideration as we work together to keep our students safe and healthy. If your family could benefit from additional help, please don’t hesitate to reach out to your student’s counselor for assistance. We are grateful for the opportunity to work with your children each day!
